

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## Announcement.

---

**A**FTER over twenty years' experience in breeding, handling and developing horses owned by myself and other parties, I ought to know the qualities most desired by the public in the road, carriage and turf horse, and have selected my horses to meet those requirements.

My stallions are standard and registered—except Lord Lytton—and are all choiceily bred and individually good. They have been selected not only for their rich breeding in speed and blood lines, but also on account of their size, bone, substance, finish, quality and perfect soundness. All can not breed winners on the turf, but if the farmer breeds a horse with size, style and action, he can always sell them for a remunerative price, and the more speed they show and the better they are bred the more money they will bring. Farmers should not sell their standard fillies, but keep them and breed to a standard horse of the most fashionable breeding, and they soon will have stock that will bring them double what their non-standard stock would bring, and have a more ready sale.

A few dollars should not keep any farmer or breeder from using a good stallion. You can not afford to breed to a cheap or non-standard horse at the present day.

In offering my horses for service, I offer as well and fashionably bred and individually as good horses for the service fee, as can be found in any stud in America.

My stallions and horses in training are kept at the Waukegan Fair Grounds, where I have a one-half mile track, plenty of box stalls, and good accommodations for developing horses both for the track and to sell. The brood mares and colts I keep on the farm, which is situated five miles north of Waukegan on the Lake Shore road, "and one mile from Benton station on the C. & N.-W. R. R." and is very fertile land, containing a variety of grasses, abundantly supplied with a stream of pure running water. The barns have box stalls, padlocks, and are healthfully situated with all the facilities for the ease and comfort of stock during either the summer or winter. Visitors welcomed and will be shown the horses with pleasure, whether they be purchasers or not.

J. W. SWANBROUGH.

## Terms for Keeping Stock.

---

Mares from a distance will be kept in the same manner as my own at \$1.00 per week for grass and attention, and \$2.00 per week in box stalls on hay and grain, or \$75 per annum. Weanlings from Oct. 1st the same as brood mares. Yearling stallions from May 1st, \$8.00 per month. Stallions 2 years old and over only by special contract. Mares not proving in foal can be returned next season free of charge, provided the stallions are alive and in my possession. Good care taken, but no liability whatever assumed for accidents, escapes, sickness or death.

Bills due when presented, and all bills must be settled before stock is removed.

I am not to be held liable in case of sickness, death or accident of any animal left with me for either breeding, training or to keep ; but sick horses will receive the same care and attention as my own.

I make a specialty of roadsters, carriage and family horses. Correspondence from purchasers solicited.

J. W. SWANBROUGH.

# Explanatory.

---

The figures printed after a horse's name—as for instance, HANSARD 7111—are the numbers under which the horses are registered in the standard department of Wallace's Trotting Register, and only standard stallions have numbers. The first standard rules governing admission to the Trotting Register were adopted by the National Association of Trotting Horse Breeders in 1880; and in December, 1887, these rules were amended, and made somewhat more stringent. Following is the present

## STANDARD:

In order to define what constitutes a trotting-bred horse and to establish a BREED of trotters on a more intelligent basis, the following rules are adopted to control admission to the records of pedigrees. When an animal meets the requirements of admission and is duly registered, it shall be accepted as a standard trotting-bred animal.

**FIRST.**—Any stallion that has himself a record of two minutes and thirty seconds (2.30) or better, provided any of his get has a record of 2.35 or better, or provided his sire or his dam is already a standard animal.

**SECOND.**—Any mare or gelding that has a record of 2.30 or better.

**THIRD.**—Any horse that is the sire of two animals with a record of 2.30 or better.

**FOURTH.**—Any horse that is the sire of one animal with a record of 2.30 or better, provided he has either of the following additional qualifications : 1. A record himself of 2.35 or better. 2. Is the sire of two other animals with a record of 2.35 or better. 3. Has a sire or dam that is already a standard animal.

**FIFTH.**—Any mare that has produced an animal with a record of 2.30 or better.

**SIXTH.**—The progeny of a standard horse when out of a standard mare.

**SEVENTH.**—The female progeny of a standard horse when out of a mare by a standard horse.

**EIGHTH.**—The female progeny of a standard horse when out of a mare whose dam is a standard mare.

**NINTH.**—Any mare that has a record of 2.35 or better, and whose sire or dam is a standard animal.

# Swanbrough Stock Farm.

No. 1.

## PRINCEPS WILKES.

REGISTERED AS HANSARD, NO. 7111.

Registered as Hansard No. 7111. Dark bay horse; 16½ hands high; foaled March 31, 1883; bred by R. S. Veech, at Indian Hill Farm, St. Matthews, Ky.

### By PRINCEPS, 536.

Sire of twenty-four with records from 2.14 to 2.30.

#### 1st dam Fallacy,

Dam of LeClede, record 2.32.

#### by George Wilkes, 519.

Record 2.22; sire of 69 with records from 2.13½ to 2.30; sire of the dams of Manager 2.16½, two-year-old, Delmarc 2.18½, France 2.19½, Fugue 2.19½, and twenty-six others in the 2.30 list. His sons have sired Axtell 2.12, Roy Wilkes 2.08½, Allerton 2.13½, Rosaline Wilkes 2.14½, and 246 other trotters in the 2.30 list.

#### 2nd dam,

#### by Nonpareil, 787.

Sire of Western New York, record 2.29, and the dam of Buzz Medium, record 2.20½. and Catskill Girl 2.28½, son of Long Island Black Hawk 24.

#### PRINCEPS, 536,

#### by Woodford Mambrino, 2.21½.

Sire of Mambrino Dudley, 2.10½, Abbottsford, 2.19½; Pancoast, 2.21½, (sold for \$28,000) and nine others in 2.30 list.

#### 1st dam Primrose,

#### by Alexander's Abdallah.

Sister to Malmasson, dam of Manetta, trial for Mr. Robert Bonner, 2.16½, and with running mate, 2.14½, 2.12½, two miles, 4.27½; Malice, trial for Mr. Robert Bonner 2.19½; Manfred, trial for Col. Wm. Turnbull, 2.25½; Muscatella, 2.28½.

Son of Hambletonian 10, sire of Goldsmith Maid, record 2.14, and four others in the 2.30 list, and the dams of thirty in the 2.30 list; sire of Belmont, (sire of Wedgewood, 2.19, and six in the 2.30 list); sire of Almont, with thirty-seven in the 2.30 list; sire of Thorndale, 2.22½, with six in the 2.30 list.

## 2nd dam Black Rose,

by Tom Teemer.

Dam of Darkness, record to pole, 2.27; Native American, record 2.33½; Lady Woodlawn, 2.37½; Hermosa, trial for Mr. A. J. Alexander, 2.26½; dam of Hermes, record 2.27½; Roscoe, 4 years old, 2.27.

## 3rd dam,

by Cannon's Whip.

## 4th dam,

by Robin Gray.

## GEORGE WILKES, record 2.22,

by Rysdyke's Hambletonian.

Sire of Harry Wilkes, record 2.13½; Guy Wilkes, 2.15½; Mike Wilkes, 2.15½; Wilson, 2.16½; So So, 2.17½; Wilcox, 2.17½; Ross Wilkes, 2.18½; Joe Bunker, 2.19½; Wilton, 2.19½; Flora Wilkes, 2.19½; and fifty-nine more with records of 2.20 to 2.30.

Sire of Dexter, 2.17½; Nettie, 2.18; Orange Girl, 2.20; Jay Gould, 2.20½, and thirty-seven more in the 2.30 list; and sire of the dams of Trinket, 2.14; Stamboul, 2.11; Duquesene, 2.17½; Orange Boy, 2.18½; David L., 2.19½; Ruby, 2.19½; Amy, 2.20½; Princeton, 2.19½, and sixty-seven others in the 2.30 list.

## 1st dam Dolly Spanker,

by Henry Clay.

## 2nd dam Old Telegraph,

by Baker's Highlander.

## NONPAREIL,

by Long Island Black Hawk.

Sire of Western New York, record 2.29, and the dam of Buzz Medium, 2.20½.

Sire of Prince, 2.24½.

## 1st dam Cornstalks,

by Mammoth Beauty.

## 2nd dam,

by Duroc.

## 3rd dam,

by Imp. Messenger.

## LONG ISLAND BLACK HAWK,

by Andrew Jackson.

Wagon record 2.38 in 1849. Sire of Prince, record 2.24½, and the dams of Effie Dean, 2.25½; Lottie, 2.28; Star, 2.30; Lady Mac, 2.25½; and sire of Vernal's Black Hawk, (sire of Green's Bashaw, sire of Josephus, record 2.19½), and sixteen others in the 2.30 list.

Sire of Henry Clay, founder of the Clay family of trotters, and sire of the dam of George Wilkes.

## 1st dam Sallie Miller,

by Tippoo Siab.

By Imp. Messenger.

## ANDREW JACKSON,

by Young Bashaw.

Dam, a pacing mare.

## YOUNG BASHAW,

by Grand Bashaw, (Arabian).

## 1st dam Pearl,

by First Consul.

## 2nd dam Fancy,

by Imp. Messenger.

## WOODFORD MAMBRINO, 345,

by Mambrino Chief, 11.

Record 2.21½. Sire of Abbottsford, 2.19½; Pancoast, 2.21½, the sire of Patron, record 2.14½, and nine others in 2.30 list; sire of fifteen producing sons and thirteen producing daughters.

Sire of Lady Thorne, 2.18½; North Star Mambrino, 2.26½; Bay Henry, 2.28½; Mambrino Star, 2.28½; Brignoli, 2.29½; also dams of Belmont, Piedmont, 2.17½, Thorndale, 2.22½; Director, 2.17; Woodford Mambrino, 2.21½, etc.

---

<b>1st dam Woodbine,</b>	by Woodford.
Dam of Wedgewood, record 2 19.	Thoroughbred Son of Kosciusko, he by Sir Archey.

2nd dam,	by Imp. Messenger.
	by Imp. Sharp.
	by Imp. Medley.

---

I take pleasure in inviting the attention of breeders to the above extended pedigree, where they will find two crosses to Hambletonian 10—one through the sire, whose dam was by Alexander's Abdallah, one of Hambletonian's greatest sons as a speed producer and transmitter of extreme speed for successive generations; one cross through his dam, Fallacy, who was sired by George Wilkes, the most prepotent sire of speed of any stallion that ever lived; one cross to Mambrino Chief through Princeps, who outranks all Mambrino stallions, having sired more 2.30 trotters than any of them and the fastest; two crosses to Clay, one through his second dam and one through the dam of George Wilkes. It is universally admitted by all intelligent and well informed horsemen, and verified by turf statistics, that the Hambletonian, Mambrino Chief

and Clay families are far in the lead of all others in producing the 2.30 trotter, and the blood of these great speed producers is united in Princeps Wilkes through the most prepotent representatives of each. His speed lines being equally as strong as his blood lines. Mambrino Chief was surpassed by his son Woodford Mambrino as a sire of speed.

And Princeps outranks his sire in that respect, having sired more 2.30 trotters than any Mambrino stallion and the fastest. He sired the first four-year-old that beat 2.20. He sired the fastest trotter descended in the male line from Mambrino Chief, and two of the fastest ones ever produced from a mare by Hambletonian 10 (with one exception), and more than twice as many 2.30 trotters out of mares by Hambletonian 10 than any other sire.

George Wilkes, the sire of the dam of Princeps Wilkes, was the greatest sire that ever lived; when we consider that he has sired sixty-nine performers with records from 2.13½ to 2.30, and that he sired the dams of thirty 2.30 performers, and sixty-three of *his* sons have sired three hundred and eleven 2.30 performers, it shows that the speed transmitting powers of this horse was marvelous.

A glance at Princeps Wilkes' tabulated pedigree shows that his breeding is exceptionally fashionable, inheriting the blood of the leading trotting families which have produced the greatest numbers of trotters and the most extreme speed, and shows a harmonious blending of prepotent trotting lines and every individual ancestor having transmitted speed.

And with this rich inheritance of blood, speed and producing lines can it be doubted that Princeps Wilkes will beget speed with great uniformity? He may be honestly called *a sire with a positive trotting inheritance tracing nineteen times to standard bred horses of the most fashionable and extreme speed producing families.*

Princeps Wilkes is a rich dark bay, sixteen and one-fourth hands high, has an expressive head, ears well set, an eye full of gentleness and intelligence, shoulders strong and oblique, back short and stoutly coupled, hind quarters of great length, and deep through the heart, closely ribbed and an excellent barrel. *His legs are particularly cordy, clean and hard, the hocks being entirely free from the slightest tendency to puff or curb, the best of feet, and his action is faultless, having a perfect trotting gait, never mixes, yet wears but a ten ounce shoe forward, and he has demonstrated that he is just the horse to regulate the action of a mixed or double gaited mare and those of a nervous temperament.* His disposition is simply perfection in or out of harness.

I have been unable to develop his speed on account of the demand for his services in the stud, but he can at any time show a way of going that will convince any one that he is sure to go fast when trained. Without any preparation whatever, and during stud service, I have driven him quarters in forty seconds with apparent ease, which convinces me

that he can make a low record if given a season's training. LeClede, a full brother, four-year-old, after making a season in the stud last year, started in two races at Philadelphia; in the first one there were nine starters and he was close up in 2.25 $\frac{1}{2}$ , 2.23 $\frac{3}{4}$  and 2.25 $\frac{1}{4}$ —getting fourth money; the next race LeClede won, obtaining a record of 2.32, and it was trotted over a heavy track that had been harrowed for runners. LeClede is owned by John Laning, of Wilkes Barre, Pa., who expects him to trot low down in the twenties this season.

Princeps Wilkes has never been bred to but few well bred mares, but from all classes of mares his colts invariably show remarkable trotting action, good size, fine style and have the bone, substance and stamina with a pure gait and level head. He has been bred to several pacing mares, but never sired a pacer. One of his colts, out of a pacing mare, is being handled by W. M. Byington, who is located at the West Side Track, in Chicago,—this colt will be two years old in July—and he wrote me February 17th, 1891: "If nothing happens to this colt, I will give him a record this season that you will be proud of. He is the best one I ever handled. He can pull a cart a three minute clip now. Have never seen him break. Have only asked him to move in harness but three times." This is an extract from one of the many letters I have received of the same character. This colt was not halter broke until a few weeks ago.

Mr. John Neely, of Fond du Lac, owns one, a four-year-old, out of a mare by Hambletonian Prince, that he tells me made a record of 2.35 last year after making a season in the stud. M. W. Bonfield, of Cummings, Ill., owns one—Prince Sparks—which showed better than a three minute gait last season, at two years old, with a few weeks handling. Loki, the only colt of his that I have trained, showed me a quarter in forty seconds at three years old with very little handling. These are all that that have been handled, but several will be trained this season and I predict favorable reports from them, and I have every confidence that Princeps Wilkes will gain distinction as a sire and will soon be classed with the great speed producers of America.

## PRINCEPS 536.

*Bay Stallion, over Sixteen Hands High. Foaled in 1870.*

Sire of Twenty-Four with records from 2.14 to 2.30.

Sire of Six Trotters with records of 2.20 and better.

Sire of Eight Producing Dams of 2.30 performers.

Sire of Eight Producing Sons of 2.30 performers.

No other horse of Princeps' age equals this.

*Princeps — Sired by Woodford Mambrino, 2.21½.*

## 1st dam PRIMROSE,

by ALEXANDER'S ABDALLAH.

## DAM OF —

Princeps, sire of Twenty-four 2.30 horses.

Abdalbrino, sire of Altar, 2.24½.

Rosebush, trial 2.32½; dam Chichester, 2.25½; sire of Chetwood, 2.28½.

Moss Rose, dam of Melrose, (dam Glenview Bell, 2.20½).

Maxim, sire of Ida D., 2.27½; and Lady Maxim, 2.27.

Parmenus, sire Daisy D., 2.30.

Pluto, sire of Blue Wing, 2.27; Leo, 2.29½; Clarence, 2.30.

Pagan, 2.38.

Binderton, 2.35; trial, 2.26½.

Ichi Ban, 2.29.

Redwald, 2.28½.

## SISTER TO MALMAISON, DAM OF —

Manetta, trial 2.16½.

Manatee, trial 2.34½.

Malice, trial 2.19½.

Mersburg, record 2.40.

Manfred, trial 2.25½.

2nd dam Fancy,	by Imp. Messenger.

---

Hambletonian Prince, foaled April 4th, 1875, is a handsome bay with black points, small star and two white ankles behind,  $15\frac{3}{4}$  hands high and weighs 1180 lbs. He is a grand horse in all his parts, having a smooth and level conformation, possessing unusual substance, finish and quality. He has a handsome and expressive head, great width between the eyes, which are full and brilliant, beaming with intelligence and resolution. His neck is blood-like and nicely arched. His shoulders are muscular, oblique and finely laid. His barrel is long and well rounded. His back is strong and his hips and quarters are broad and swelling with a wealth of power. His legs are as hard and as clear as ivory, with abundant bone and sinew. His hocks are clean, as though cut from marble, and there is little chance in his make-up for curbs or spavins. His heavy, flowing tail, carried in splendid style, adds commanding finish to his magnificent form. In fact he is a horse of extreme beauty and commanding presence, while in detail he challenges the most critical examination. He is royally bred and his inheritance of the pure trotting blood, which produces uniform and extreme speed, is princely in character. He is a worthy scion of the world-famed Hambletonian, and his out-crosses come through distinguished members of families equally famous. His sire was Menelaus, son of Rysdyke's Hambletonian, sire of Cleora—record  $2.18\frac{3}{4}$ —and through his sire he inherits the speed-producing blood of Hambletonian, 10, Long Island Black Hawk, Andrew Jackson (founder of the famous Clay family) and the Bashaws, all illustrious sons and the most noted members of those remarkable speed-producing families. His first dam was by Toronto, sire of the dams of Aldine,  $2.19\frac{1}{4}$ , and record with Maud S.  $2.15\frac{1}{2}$ , Lister  $2.25\frac{1}{4}$ , Mignon  $2.27\frac{1}{4}$  and Good Morning  $2.28$ , all being sired by Hambletonian horses, making their breeding very similar to that of Hambletonian Prince. His second dam

was by Downing's Bay Messenger, sire of Jim Porter, record 2.28½; also sire of the dam of Clark Chief, sire of Croxie, 2.19¼, and sire of the dams of Phallas 2.13¾, Majolica 2.15, Wilson 2.16¾. Downing's Bay Messenger is found very conspicuously in the breeding of the dams of very many of our most distinguished sires and famous trotters. Hambletonian Prince's 3rd, 4th and 5th dams trace directly to Imp. Diomed and Imp. Messenger, giving him a double cross through dam and sire of the richest and stoutest strains of this royal blue blood, a foundation which gives him and his get the nerve, game and great endurance which they are noted for having. Toronto was sired by St. Lawrence, a horse bred near Montreal, Canada, the first horse to stand for \$200, and had a harness record of 2.34, wagon record 2.36, 3-mile wagon record 8.07½, and he trotted about forty heats in races which he won, travelling all over the U. S. and Canada and being matched against the best horses of his day. He made his best record in 1848, over forty years ago, and when we consider the improvements that have since been made in the smoothness of the tracks, light sulkys, boots, shoeing, and the education of the trainer in his profession, it must be admitted that he was a horse of phenomenal speed and great endurance; and could he have had a Bither, a Double, or a Splan to have educated and trained him with all our modern improvements, who can doubt but that he would have placed a mark so low as to still be the most famous stallion the world ever produced. Hambletonian Prince's 1st dam, Minnie Clyde, was the dam of Argonaut, record 2.27. She was bred by Thomas Hook, Esq., of Scott County, Kentucky. She was purchased for a road mare and never was trained, but could draw a top buggy better than three minutes, and was noted for her great endurance, being able to go 12 and 15 miles an hour with ease; had a big, open gait, that, with training, would have developed great speed. His second dam was full sister to Jim Porter, 2.28½, and his third dam was the dam of Jim Porter, 2.28½, and behind that he is backed with the stoutest thoroughbred and the blood of those great families are united in Hambletonian Prince through the most prepotent representatives of each. With this rich inheritance of blood and speed-producing lines, can it be wondered that he begets speed with much uniformity? He stamps his offspring with all his good qualities, as he has no infirmities to transmit, but the power to counterbalance many defects in the dam. He never has been regularly trained for speed; but when 3 years old, after making a season in the stud, he trotted one-half mile in 1.18; at 4 years old he won two races, obtaining a record of 2.40, and I have driven him over the Waukegan track, which is a slow and rough one, in stud condition, in 2.34½—one-half in 1.15, and drove him a ¼ in 35 seconds (a 2.20 gait). He and his colts have been very fortunate in the show ring, and I have never shown him at a State or National Fair without taking a premium; and in 1883 he was awarded, at the Illinois State Fair, the grand Sweepstakes for best trotting stallion of any age, and at the

same Fair a sucking colt, a two-year-old and a four-year-old were awarded first premiums. He has been well patronized in the stud, but mostly with ordinary mares, as very few standard or well-bred mares have been bred to him ; and I think, considering the limited opportunities he has had, that he stands second to no stallion as a producer of speed and road sters. He is the sire of Prince, record 2.26½, Little Frank, record 2.33½, trial 2.27, Gen. Garfield, record 2.40, trial 2.30, Prince, record 2.40½, trial 2.29, Lady Prince, record 2.46, and many others that have shown remarkable speed with little handling, and have been sold for roadsters or been placed in the stud. No horse has ever stood for service in this section excelling him in getting sound, serviceable and promising trotters, roadsters and carriage horses, and no breeder or farmer can make a mistake in breeding to him, as there is not in his combination one drop of anything but valuable blood, and his colts cannot be excelled for endurance and stamina. The demand there is for them, and the prices they bring, is convincing proof that it pays to raise them.

His service fee is too low, and is lower than any stallion standing for service that has produced as much speed and as many valuable horses, and that is as good an individual, and that is as rich and fashionably bred, he being a grandson of Hambletonian, 10, and by a producing sire, and he a producer himself and out of a producing mare. You can't name his equal that is standing for the same fee.

No. 3.

**LOKI, 9718.**

Bay Stallion ; 15 $\frac{1}{4}$  hands high ; foaled May 16, 1887 ; bred by J. W. Swanbrough.

**Sired by PRINCEPS WILKES, 7111.**

1st dam Fanchon, by Hambletonian Prince, 9716.  
Sire of Prince, record 2.26 $\frac{1}{4}$ , and the dam of King Chester, 2.26 $\frac{1}{4}$ .

2nd dam Belle of Waukegan, by Creeper, 1664.  
Record 2.35. Sire of Phil. Sheridan, record 2.26 $\frac{1}{4}$ , and dams of Greystone, 2.28 $\frac{1}{2}$ , Hannis, jr., 2.29 $\frac{1}{4}$ .

3rd dam Jessie, by Arnold's Weasel.  
Record 2.35. Son of Sherman Black Hawk, 142, sire of Chicago Jack, record 2.30, Panic, 2.28.

4th dam Lady Alice. by Princeps, 536.  
Dam of Phil. Sheridan, 2.26 $\frac{1}{4}$ , Gen. Grant, 2.35. Sire of 24 with records from 2.14 to 2.30 ; has 8 producing sons and 8 producing daughters, which is unequaled by any stallion of his age.

1st dam Fallacy, by George Wilkes, 519.  
Dam of LeClede, record 2.32. Record 2.22. Sire of 69 with records from 2.13 $\frac{1}{2}$  to 2.30, and sire of the dams of 30 with records from 2.16 $\frac{1}{4}$  to 2.30.

2nd dam the Muckle Mare, by Nonpariel, 787.  
Sire of Western New York, 2.20, and the dams of Buzz Medium, 2.20 $\frac{1}{4}$ , Catskill Girl, 2.28 $\frac{1}{4}$ .

**HAMBLETONIAN PRINCE, 9716,** by Menelaus, 229.  
Sire of Prince, 2.26 $\frac{1}{4}$ . Sire of 7 with records from 2.18 $\frac{1}{4}$  to 2.30, and 3 producing sons.

1st dam Minnie Clyde, by Toronto.  
Dam of Argonaut, record 2.27. Sire of the dams of Aldine, 2.19 $\frac{1}{4}$ , and 5 others in 2.30 list.

2nd dam Miss Porter, by Downing's Bay Messenger.  
Full sister to Jim Porter. 2.28 $\frac{1}{4}$ . Sire of the dam of Clark Chief, sire of Croxie, 2.19 $\frac{1}{4}$ , and the dams of Phallas, 2.13 $\frac{1}{4}$ , Majolica, 2.15, Wilson, 2.16 $\frac{1}{4}$ .

3rd dam Madam Porter, by Roman's Orphan Boy.  
Dam of Jim Porter, 2.28 $\frac{1}{4}$ . By Orphan Boy, by American Eclipse.

**CREEPER, 1664,**

Sire of Phil. Sheridan, 2.26½.

By Black Hawk, 5.

**BLACK HAWK, 5,**

Sire of the 2nd dam of Nelson, 2.10¾.

**by Sherman Morgan.**

By Justin Morgan.

Loki is a dark bay, nearly 16 hands high, two white ankles, near forward coronet white, and is a colt possessing a powerfully knit frame, well harnessed with muscle. He has a good head, neck long and well set on powerful shoulders well thrown back. He has a short back, loin full and well braced with fillets of muscle reaching back into his powerful quarters, below which his propelling points are powerfully defined. He is deep through the heart, with well sprung ribs and good in the flank as well. His limbs are of the clean, hard, wiry sort, and are well supported by excellent feet. His gait is long and low and carries him with the least possible apparent expenditure of force, and if nothing happens him he will make a record that will be a credit to the illustrious family which he represents. As a yearling he could show more speed in the lot than any colt I ever saw. At 2 years old a severe case of distemper prevented him from being harnessed during the whole summer. At 3 years with a few weeks' work in the spring he showed quarters in 40 seconds, but a case of throat trouble laid him up the balance of the season. He is now all right and will be handled this season. Individually he is equal to his grand ancestral lines, and is a most worthy representative of our most fashionable and prepotent trotting families. An analysis of his breeding gives us three crosses to Hambletonian 10, one cross to Mambrino Chief 11, one cross to Henry Clay through George Wilkes, three crosses to Andrew Jackson, founder of the Clay family, two crosses to Black Hawk 5, through his 2nd dam and the 2nd dam of Nelson, 2.10¾, the fastest stallion on earth, was by Black Hawk 5. By right of inheritance he should make one of the grandest trotting sires and turf stallions in America, and I predict a bright future for him. He will be allowed only a few choice mares this season, but will be put in training.

**LORD LYTTON.**

Dark bay; no white; 15 $\frac{3}{4}$  hands high; foaled May 20th, 1886; bred by W. S. Hutchinson, Chicago, Ill.

**Sired by HAMBLETONIAN PRINCE, 9716.**

Sire of Prince, 2.26 $\frac{1}{4}$ ; Little Frank, record 2.33 $\frac{1}{2}$ , trial 2.27; Gen. Garfield, record 2.40, trial 2.30; Prince M.; trial 2.29; Prince Arthur, trial 2.29.

1st dam Lady S.,

by Creeper, 1664.

Sire of Phil. Sheridan, 2.26 $\frac{1}{2}$ , and the dams of Greystone, 2.28 $\frac{1}{4}$ , Hannis, Jr., 2.29 $\frac{1}{4}$ .

2nd dam Lady Davis,

by Seneca Chief.

3d dam Flora Davis,

by Reindeer Messenger.

G. sire of the dams of Moody, 2.18 $\frac{1}{4}$ , Edge Cliff, 2.27.

**HAMBLETONIAN PRINCE, 9716,**

by Menelaus, 226.

Sire of Prince, 2.26 $\frac{1}{4}$ ; Little Frank, record 2.33 $\frac{1}{2}$ , trial 2.27; Gen. Garfield, record 2.40, trial 2.30; Prince M., record 2.40 $\frac{1}{4}$ , trial 2.20 etc.

Sire of Cleora, 2.18 $\frac{1}{4}$ , and 6 others in 2.30 and 3 producing sons.

**CREEPER, 1664,**

by Cottrill Morgan.

Sire of Phil. Sheridan, 2.26 $\frac{1}{4}$ .

Sire of the dams of Westmont (harness), 2.13 $\frac{1}{4}$ , Westmont (with mate), 2.01 $\frac{1}{4}$ , Eginton, 2.21 $\frac{1}{4}$ , Lamartine, 2.27 $\frac{1}{4}$ .

1s dam,

by Young Bulrush.

Son Bulrush, by Justin Morgan.

2nd dam,

by Green Mountain Morgan.

**COTTRILL MORGAN,**

Sire of Eastman Morgan, sire of Little Fred, 2.20, sire of Morgan Eagle, the sire of the dam of Kentucky Prince, the sire of Guy, 2.10 $\frac{1}{4}$ .

Sire of Bell Morgan, the sire of Lady Turpin, 2.23, and the dams of 2 in 2.30.

by Black Hawk, 5.

Sire of the 2nd dam of Nelson, 2.10 $\frac{1}{4}$ , sire of Ethan Allen, 2.25 $\frac{1}{4}$ , the sire of 14 sons that have sired 71 in 2.30, and sire of the dams of 15 with records from 2.22 $\frac{1}{4}$  to 2.30; sire of Daniel Lambert, the sire of 23 trotters with records from 2.10 $\frac{1}{4}$  to 2.30, and has 15 sons that have sired 32 in the 2.30 list, and sired the dams of 18 with records from 2.16 $\frac{1}{4}$  to 2.30.

Lord Lytton is a dark bay, over 15 $\frac{3}{4}$  hands high, no white, foaled May 20th, 1886. Individually he is a grand horse. He has a splendid neck, clean cut head which he carries high without a check, shoulders

sloping and well laid, nicely rounded barrel, great stifle, strong quarters, and stands on splendid legs with the very best of bone and substance, and feet that can not be bettered, and is without a blemish. He has a rapid and pure trotting gait, with great knee action, a characteristic of the Hambletonian Morgan cross. He is an exceptionally fine looking horse in harness, having a majestic carriage, added to his fine color, makes him very attractive, and is as fine a road horse as I ever drove. His dam was by Creeper, 1664, and was a mare 16 hands high, and a mare of great endurance and speed, but was sold before she was developed to go on the road, in Chicago. His second dam was Lady Davis, by Seneca Chief. She was quite a noted mare, having won several races and getting a record in about 2.40 at 4 years of age. She afterward went to Chicago and trotted in a good many matinee races, getting a record better than 2.40 to road wagon. She was sold to parties in New York who bred her to St. Gothard, and the produce is a colt which is called Gothic Wilkes, and is owned by Thomas Hollier, Jr., Skaneateles, N. Y., which has shown better than a 2.30 gait, and he is very confident will enter the 2.30 list this season. When Gothic Wilkes makes a record of 2.30, it makes Lord Lytton standard and eligible to registration. Lady Davis was over 16 hands, very handsome, and an ideal road mare. Lord Lytton was only handled a short time last season and showed a 2.40 gait, and I am confident with proper handling will beat 2.30. He should sire speed and a high class of road horses. He is just the horse to breed upon the common mares of this section, as many of our farmers well know what old Creeper and Hambletonian Prince have done for them, and a commingling of their blood in a stock horse should be productive of great results. His blood lines on both sides present extreme speed for generations, and he is bred in the lines that have produced many of our noted turf performers, which an inspection of his pedigree will show.

For the purpose of introducing him and his get to the farmers and small breeders, I have placed his service fee very low for this season.

## OPTIMUS.

"STANDARD."

Bay colt; foaled July 14th, 1889; bred by J. W. Swanbrough.

**Sired by PRINCEPS WILKES, 7111.**

1st dam Belle of Waukegan, by Creeper, 1664.  
 Sire of Phil Sheridan, 2.26½ and dams of  
 Hannis, Jr., 2.29¾, Greystone, 2.28¾.

2nd dam Jessie, by Arnold's Weasel.  
 Son of Sherman Black Hawk, sire of Chicago Jack, 2.30, Panic, 2.28.

4th dam Alice.  
 Dam of Phil Sheridan, 2.26½.

**PRINCEPS WILKES, 7111,** by Princeps, 536.  
 Sire of Trinket, 2 14, Greenlander, 2.15¾,  
 Granby, 2.19¾, Geneva, 2.19¾ and 20 others  
 in 2 30.

1st dam Fallacy, by George Wilkes, 519.  
 Dam of LeCede, 2.32.  
 Sire of 14 with records of 2.20 and better, and  
 69 with records from 2.13½ to 2.30; sire of  
 the dams of 30 with records from 2.16¾ to  
 2.30.

2nd dam the Muckle Mare, by Nonpareil, 787.  
 Sire of Western New York, 2.29, and dams of  
 Buzz Medium, 2.20½, Catskill Girl, 2.28¾.

**CREEPER, 1664,** by Cottrill Morgan.  
 Sire of Phil. Sheridan, 2.26½.  
 Sire of Annie, the dam of Westmont, 2.13¾,  
 Egmont, 2.21¾, Lamartine, 2.27¾.

1st dam, by Young Bulrush.  
 Son of Bulrush, by Justin Morgan.

2nd dam, by Green Mountain Morgan.  
 Sire of Eastman Morgan, the sire of Little  
 Fred, 2.20, sire of Morgan Eagle, the sire  
 of the dam of Kentucky Prince, the sire of  
 Guy, 2.10¾.

**COTTRILL MORGAN,** by Black Hawk, 5.  
 Sire of Bell Morgan, the sire of Lady Turpin, 2.23.  
 Sire of Ethan Allen, 2.25¾, and 14 sons that  
 have sired 2.30 performers.

**ARNOLD'S WEASEL,** by Sherman Black Hawk.  
 Son Black Hawk 5, sire of Ethan Allen, the  
 sire of Daniel Lambert, sire of 33 performers  
 in 2.30, and his sons have sired 32 in  
 the 2.30 list, and sired the dams of 18 with  
 records from 2.16¾ to 2.30.

**BLACK HAWK, 5.**

Sire of the 2nd dam of Nelson, 2.10%.

Optimus is a rich bay colt foaled July 14th, 1889. Two white ankles behind, two white coronets forward and star. He will make a horse  $15\frac{3}{4}$  hands high, has a very intelligent head, large hazel eyes beaming with intelligence and resolution. His neck is long, blood-like and nicely arched, short back, broad loin, smooth, round hips and is of a rangy conformation, but the Morgan cross has rounded him up giving him the beauty, style, grace, docility and speed for which that family are so well noted for possessing. Who doubts but what Nelson, 2.10%, takes his style, beauty, and a good part of his speed from the Morgans, as his 2nd dam was by Black Hawk, 5, by Sherman Morgan, by Justin Morgan, and the dam by Young Rolfe, sire of Nelson was by Draco, by Young Morrell, by Morrell, by son of Young Bulrush Morgan. It will be seen that Optimus and Nelson's breeding contain about the same amount of Morgan blood, and they both have a cross of Hambletonian, 10. And Nelson is not the only horse of extreme speed that contains a large amount of Morgan blood. Rosaline Wilkes (2.14 $\frac{1}{2}$ ), by Harry Wilkes, dam by Zilcaadi Goldust, he by a son of Vermont Morgan. Wilton, 2.19 $\frac{1}{4}$ , and Albert France, 2.20 $\frac{1}{4}$ , was by George Wilkes and their 2nd dam by Flying Morgan. Lucilles Baby, 2.20 $\frac{1}{2}$ , was by Princeps, dam by son of Vermont Morgan, and many others could be cited but this shows that the blood of Optimus is prepotent and has produced many of our gamiest and fastest trotting horses. He is being broken and shows remarkable trotting action, and I predict that he will make a great stock horse or turf performer. He will not be bred this season, but handled for speed. All my young stallions are for sale at living prices.

No. 6.

**LORATUS, 14719.**

Bay colt; foaled April 20, 1889; bred by J. I. Case, Hickory Grove Farm, Racine, Wis.

**By KING SPRAGUE, 4596.**

Record 2.28½; son of Gov. Sprague, 2.20½, sire of 26 in 2.30 list, and Molly Whitefoot, the dam of Croxie, 2.19¼, and Frank Champ, 2.16¾.

1st dam Field Lark,

Half-sister to Miss Woodford, 2.23½, sister in blood to Phallas, 2.13¾.

by Enfield, 129.

Record 2.29, and blood brother to Dictator, Aberdeen, etc.; sire of 2 in 2.30 list, dams of Reference, 2.19, and 2 others in 2.30 list.

2nd dam Lizzie Anderson,

Dam of Miss Woodford, 2.23½.

by Clark Chief, 89.

Sire of Croxie, 2.19¾; Kentucky Prince (sire of Guy, 2.10¾, Spofford, 2.18¾, Company, 2.19¾, etc.), and 15 others in 2.30, and of the dams of Phallas, 2.13¾, Majolica, 2.15, Wilson, 2.16¾, and 2 others in 2.30.

3rd dam,

by Imp. Hooton.

Sire of Kate Crockett (dam of Lulu, 2.14¾, and grandam of Centella, 2.21, and Star Hambletonian, 2.23¾).

As will be seen by a glance at the tabulated pedigree, Loratus is very richly bred in both the paternal and maternal lines. For his sire he has King Sprague, 4596, 2.28¾, undoubtedly the best bred son of the illustrious Gov. Sprague, 2.20½—his dam having produced two in the 2.20 list, and counting Mulatto, public trial as a three-year-old in 2.26, four in 2.30 or better. The dam of this colt is by Enfield, 128, record 2.29, a game race horse, the sire of six in 2.30, and of the dams of fifteen in 2.30 or better,—nine in 1890.

In his veins is the blood of Clark Chief, 89, through the dam of Miss Woodford, 2.23½, and of American Star, 14, through Julia Machree, the dam of two in 2.30.

Individually, Loratus is all that could be desired. He is a rich bay, 15.1 hands high, has good bone, excellent feet, deep shoulders, short, straight back, long quarters, a beautiful head, carried well up, and large, full eyes, and is well furnished in mane and tail. In disposition he is a typical Sprague; and to those who knew the Governor, that will mean about perfection.

Though not broken to harness till December last, his present speed and way of going make me sanguine that he will prove a trotter.

# Brood Mares.

---

## AROMA.

Dark bay; fine stripe in face; left hind ankle white; foaled March 17th, 1887; bred by J. W. Swanbrough.

AROMA	Princeps Wilkes.....	{ Princeps, 536 .....	Woodford Mambrino, 345
		Primrose.	
		Fallacy .....	{ George Wilkes, 519. By Nonpareil, 787.
	Lady Ericsson.....	{ Ericsson, 130 .....	{ Mambrino Chief, 11. Mrs. Caudle.
		By Engineer, 2.	

## SIRE PRINCEPS WILKES, 7111.

1st dam Lady Ericsson,

by Ericsson, 130.

Sire of Rarely, 2.24½, Double, 2.28, Eric (4),  
2.28½, Belle, 2.28½, Lulu F., 2.29, Nightin-  
gale, 2.28½, and the dams of J. R. Shed,  
2.19½, Godelia, 2.19½, Bellman, 2.22½, and  
6 others in 2.30 list.

2nd dam,

by Engineer, 2.

1890 bred to Boaz, 3754, son of Onward, 1411.

---

Aroma is a smooth and excellently formed mare, and owing to her rich inheritance I have reserved her for a brood mare. She is not broken but shows remarkable trotting action and would trot fast if trained. Her dam was fast and a mare of great endurance. She was bred by B. F. King, of St. Joseph, Mich., and he writes me that she trotted their one-half mile track repeatedly in 2.35 and could trot a good track in 2.30. He sold her to Marshall Field, of Chicago, for \$2,000. The dam of Lady Ericsson was purchased during the war by Col. N. G. King, of the Hon. John M. Botts, of Virginia. Aroma has two crosses to Mambrino Chief, two to Hambletonian, 10, two crosses of Clay blood, and backed by Thoroughbred. She is in foal to Boaz, son of Onward, and the blood and speed lines should suit the most exacting.

## HELA.

Brown; 16 hands; two white coronets behind; foaled June 13, 1887; bred by J. W. Swanbrough.

HELA	Princeps Wilkes.....	Princeps, 536 .....	Woodford Mambrino, 345. Primrose.
	Fallacy .....		
	Creeper, 1664 .....		
	Jessie .....		

## SIRE PRINCEPS WILKES, 7111.

1st dam Belle of Waukegan,

by Creeper, 1664.

Sire of Phil. Sheridan, 2 26½, and the dams  
of Greystone, 2 28½, Hannis, Jr., 2 29¾.

2nd dam Jessie,

by Arnold's Weasel.

By Sherman Black Hawk, 142, sire of 2 with  
records of 2.30, and sire of 4 sons that have  
produced 2.30 performers, and g. sire of  
Doty, 2.21, Foxie V., 2.23½, Billy Barefoot,  
2 28½, Herod 2.24½, Gen. Storms, 2.27½,  
Lady M., 2 30, and the dams of Gean Smith,  
2 15½, Badger Boy, 2 29, Brown Dick,  
2.29½, Babe Wilkes, 2 30, etc.

3rd dam Lady Alice.

Dam of Phil. Sheridan, 2.26½.

1890 bred to Lexington Wilkes, 4878.

Hela is a large, highly formed filly, with a speedy conformation and excellent bone and substance. She was bred at two years old and has not been driven but a few times. She has a big, open, loose way of going which with development would carry her fast, but on account of her size and choice breeding I have reserved her for a brood mare. Her dam was one of the best animals I ever owned. She had the indomitable will and nerve force of the race horse and had she not met with an accident would have been the fastest of Old Creeper's get. Hela's 1st, 2nd and 3rd dams were all individually great mares in their day and could trot better than 2.40 and were noted road mares and I am confident that Hela will produce speed. The recent performances of Nelson, 2.10¾, shows the value of a strong infusion of Morgan blood.

## LINNETTA SPRAGUE.

Dark bay; foaled May 10th, 1889; bred by J. I. Case, Hickory Grove Farm, Racine, Wis.

## LINNETTA SPRAGUE.

King Sprague, 4596.....	{	Gov. Sprague, 444.....	{	Rhode Island, 267.
		Molly Whitefoot.....	{	By Hambletonian, 10.
Mary Coleman .....	{	MambrinoChief(Gray's	{	Young Priam.
			{	Downing's Bay Messenger.
		Daughter .....	{	Mambrino Chief, 11.
			{	Untraced.
			{	Toronto.
			{	Dam of Bay Chief.

## SIRE KING SPRAGUE, 4596.

Record 2.28 $\frac{3}{4}$ .

1st dam Mary Coleman, by Mambrino Chief (Gray's).

Dam of Linda Sprague, 2.19. Nomad, 2.35. Sire of Mambrino Chief, 11.

2nd dam, by Toronto.

Son of St. Lawrence, and sire of the dams of Aldine, 2.19 $\frac{3}{4}$ , and 3 others in 2.30.

3rd dam, by Keokuk.

Son of Imp. Truffle.

Dam of Bay Chief, sire of dams of Monroe Chief, 2.18 $\frac{3}{4}$ , and 2 others better than 2.30.

4th dam, by Stamboul.

An Arabian.

Linnetta Sprague is a filly of a very speedy form, and is very pure gaited, and will make a game race mare or a grand brood mare. She has the blood of a producing dam, and is by King Sprague, and his dam has produced 3 in the 2.30 list, 2 of them being in the 2.20 list, and he is one of the best sons of Gov. Sprague. She will be bred to Princeps Wi kes, and the produce should make a star performer.

## BELLE OF WAUKEGAN.

Dark chestnut; 15½ hands high; three white feet and star; foaled May 15th, 1866; bred by J. W. Swanbrough.

BELLE OF WAUKEGAN.			
Creeper, 1664	{	Cottrill Morgan.....	Black Hawk, 5. Imported Mare.
Jessie	{	By Young Bulrush.....	Bulrush Morgan. By Green Mount'n Morgan.
	{	Arnold's Weasel.....	Sherman Black Hawk, 142. Fast Pacing Mare.
	{	Lady Alice.....	Untraced. Untraced.

## SIRE CREEPER, 1664.

Sire of Phil. Sheridan, 2.26½, and dams of Greystone, 2.28½, Hannis, jr., 2.29¾.

1st dam Jessie,

by Arnold's Weasel.

Son of Sherman Black Hawk, 142, sire of 2 in the 2.30 list, and sire of 4 sons that have produced Doty, 2.21, Foxie V., 2.23½, Billy Barefoot, 2.28½, Herod, 2.24½, Gen. Storms, 2.27½, Lady M., 2.30, and the dam of Gean Smith, 2.15½.

2nd dam Lady Alice.

Dam of Phil. Sheridan, 2.26½, Gen. Grant, 2.35.

## PRODUCOE.

1878 b. f. Belle Wilkes, sold  
1882 b. f. Fanchon, sold  
1883 b. c. Prinney, sold  
1886 b. f. Belle Hansard, sold  
1887 b. f. Hela  
1888 b. c.

by Young Wilkes.  
by Hambletonian Prince.  
by Hambletonian Prince.  
by Princeps Wilkes.  
by Princeps Wilkes.  
by Princeps Wilkes.

Belle of Waukegan, in her younger days, was a very handsome and blood-like mare, having a neat, clean cut head, very large hazel eye, very wide between the eyes, long arched neck, good shoulders, round body, smooth hips, good quarters, very resolute, great nerve force, but perfectly kind and tractable, and an animal of great individual excellence. She was fast as a colt, trotting a good many races and winning all of them. I sold her when five years old to Alfred Spink, of Chicago, for \$1,000. He mated her and drove them on the road, claiming no team in the city could beat them. After his death I bought her back for a brood mare. All of her colts show speed. Her first colt trotted in 2.40 at four years old, and I sold her for \$1,000. Her dam, Jessie, with very little handling, could trot close to 2.30, and her 2nd dam, Lady Alice, mother of Phil. Sheridan, 2.26½, could trot in 2.40 thirty years ago. Her ancestors are all fast and producers of speed, and I look to see her colts trot fast or be speed producers.

## PRINCESS H.

Bay filly ; foaled May, 1890 ; two white ankles behind ; left forward coronet white ; small star ; bred by George A. Wright, Libertyville, Ill.

PRINCESS H.			
Princeps Wilkes.....	{	Princeps, 536 .....	Woodford Mambrino, 315. By Abdallah, 15.
Lady M.....	{	Fallacy .....	George Wilkes, 519. By Nonpariel, 787.
	{	Hambletonian Prince ..	Menelaus, 226. 9716. By Toronto.
	{	Lady.....	Creeper, 1664. Untraced.

## SIRE PRINCEPS WILKES.

Registered as Hansard, 7111.

1st dam Lady M.,

by Hambletonian Prince, 9716.

Sire of Prince, record 2.26 $\frac{1}{4}$ , and dam of King Chester (3), 2.26 $\frac{1}{4}$ .

2nd dam Lady,

by Creeper, 1664.

Sire of Phil. Sheridan, record 2.26 $\frac{1}{4}$ , and sire of the dams of Greystone, 2.29 $\frac{1}{2}$ , Hannis, jr., 2.29 $\frac{1}{2}$ .

Princess H. is a very handsome filly, and is perfect in form and gait. She will make a mare 15.3 or 16 hands high, and will make a race mare or a grand brood mare. She has 3 crosses to Hambletonian, 10, 1 to Mambrino Chief, 11, 2 to Clay blood, and 1 to Black Hawk, 5, through her 2nd dam, and the 2nd dam of Nelson, 2.10 $\frac{1}{4}$ , was by Black Hawk, 5.

## BON EWART.

Brown mare; foaled 1886; 15½ hands; bred by W. D. Ewart, Chicago, Ill.

<b>BON EWART</b>	Hambletonian Prince ..	Menelaus, 226..... 9716.	Hambletonian, 10. By Black Hawk, 24.
	Belle Malone .....	Minnie Clyde .....	Toronto. Downing's Bay Messenger.
		Preston's B shaw.....	Bashaw, 50. By Tom Hyer.
		By Young St. Charles..	Imp. St. Charles.

**SIRE HAMBLETONIAN PRINCE, 9716.**

Sire of Prince, 2.26½, and dam of King Chester, 2.26½.

1st dam Belle Malone,

by Preston's Bashaw.

Son Bushaw, 50, sire of Josephus, 2 19¾, and 16 others in 2.30; has 13 producing sons and 19 producing daughters.

2nd dam,

by Young St. Charles.

Son of Imp. St. Charles.

1890 bred to Princeps Wilkes, 7111.

Lucy Ewart is a fine shaped mare, and has a big, open gait, with great knee action, and could show better than a three minute gait, but never was driven but a few times. She traces through her sire to Hambletonian, 10, and through both sire and dam to Black Hawk, 24, with a thoroughbred foundation on both sides. She is in foal to Princeps Wilkes, and her produce should be fast and game.

## BESSIE MARKS.

Black mare; 16 hands high; bred by M. Marks, Oak Park, Ill.

<b>BESSIE MARKS.</b>	Gage's Logan, 127 .....	Hambletonian, 10. By Ohio Eclipse
		Being traced.

**SIRE GAGE'S LOGAN, 127.**

Sire of Skinkle Hambletonian, 2.28½, and the dam of Hambletonian Bashaw, 2.21½, Jennie Sprague, 2.27½, Diatonic, 2 27½.

Is a mare 16 hands high, and is a very fine formed mare, and has a mild disposition, is very level headed, and has trotted trials in 2.24. She was owned by Mr. E. Hopkins, of Chicago, who drove her on the road, and he writes me that he could drive her to the track any day and beat 2.30 with her, and that no horse passed her on the road for 3 years, "trotter or pacer." Mr. M. Marks, of Oak Park, Ill., brought her dam from New York, and owing to Mr. Marks' death I have been as yet unable to trace her breeding. She foaled a bay colt January 5th, 1891, by Princeps Wilkes, and it is a large, fine colt, and gaited to make a race horse, and I expect to make one of him.

## ELSIE.

Bay; 15 hands; small star; foaled June 6, 1887; bred by J. W. Swanbrough.

<b>ELSIE.</b>	Princeps Wilkes.....	{ Princeps, 536 .....	{ Woodford Mambrino, 345.
	Fallacy .....	{ Fallacy .....	{ George Wilkes, 519.
	Lady Rinear.....	{ George Eclipse .....	{ By Nonpariel, 787.

By Post Boy.

**SIRE PRINCEPS WILKES, 7111.**

1st dam	Lady Rinear,	by George Eclipse.
		Sire Gurney's Eclipse.
2nd dam,		by Post Boy.
3rd dam,		by Gifford Morgan.

Elsie is a very handsome mare, and a born trotter. She will be worked for speed this season.

## MATTIE.

Dark bay; foaled May, 1889; right hind ankle white; near forward coronet white; star; bred by J. W. Swanbrough.

**SIRE PRINCEPS WILKES, 7111.**

1st dam	Lady Rinear,	by George Eclipse.
2nd dam,		by Post boy.
3rd dam,		by Gifford Morgan.

Mattie is a large and very highly formed filly, is nicely gaited, and promises to trot fast. Her beauty and style will make her valuable as a roadster.

89098654965

B89098654965A

*SWANBROUGH STOCK FARM.*

**LITTLE FRANK.**

Record 2.33 1/2 ; trial 2 27.

Bay gelding ; under 15 hands ; foaled 1882 ; left hind ankle white ; left forward ankle white ; right hind coronet white ; stripe in face ; bred by Qunice Merrick, Libertyviile, Ill.

**SIRE HAMBLETONIAN PRINCE, 9716.**

Sire of Prince, 2 26 1/4, etc.

Dam's breeding unknown.

Little Frank is a game race horse, and no race is too long for him. He has been unfortunate in not being in good hands, and never was in first class condition to trot a race. He will be given a good chance this season, and I expect him to make a mark of 2.25 or better. He is very intelligent, clever, and a great pet in or out of harness ; would make a fine road horse for some gentleman; is a great horse to the pole.

**MEGISTOS.**

Bay colt ; foaled January 5th, 1891 ; bred by J. W. Swanbrough.

MEGISTOS.			
	Princeps Wilkes.....	Princeps, 536. ....	Woodford Mambrino, 345. By Abdallah, 15.
		Fallacy .....	George Wilkes, 519. By Nonpareil, 787.
	Bessie Marks.....	Gage's Logan 127.....	Hambletonian, 10. By Ohio Eclipse.
		Untraced.	

**SIRE PRINCEPS WILKES, 7111.**

1st dam Bessie Marks,

by Gage's Logan, 125.

Megistos is a large, speedy shaped colt, and acts like a trotter, and I expect to make a colt stake winner of him. All colts by Princeps Wilkes foaled in 1891 are eligible to Clark's Horse Review \$15,000 colt stake.
